

Features

- Stopwatch, countdown, and time large display.
- High-brightness, high-luminosity characters.
- IP64 protection rating for pool environments.

Applications

- Olympic-sized swimming pools

Description

The DPT is a digital stopwatch, countdown, and time large display indicator designed for high-humidity environments (IP64).

It features high-brightness segment displays, allowing for illuminated characters and a wide viewing angle of over 50 meters.

It is designed to provide stopwatch information for swimmers in pool lanes during their workouts. It is easily controlled with a remote control.

Technical specifications

Parameter

Power supply		240 -110Vac , 50/60 Hz
Stopwatch measure		
	Range	0:00 a 59:59
	Precision	1 second (0:01)
Countdown measure		
	Rango	59:59 a 0:00
	Precisión	1 second (0:01)
Clock measure		
	Range	00:00 a 23:59
	Precision	1 minute(0:01)
Housing material		Black painted Iron sheet
Working temperature		-10°C - 50°C
Working humidity		10% to 80% HR without condensation
Storage temperature		- 20°C, +45 °C
Storage humidity		5% to 95% HR without condensation
Protection degree		IP64 for outdoors and pools

Dimensions

Weight

5.0 Kg
